“ I first met Tony (I knew him as Bruce then) at LMHS. Later he became a co-worker at LPD, and had changed his name to Antony Perez Vega. In school he was always known for politeness, his intelligence, his dedication to the ROTC. At LPD he had a great work ethic. He loved Star Wars & science , did great art & had a weird, but funny sense of humor. I remember after my retirement in 2008 we'd talk at various times & he was always concerned about my health. He believed my Cancer & his illness came from the asbestos and mold at LPD. I thought of him as a great guy.

“ I had the honor to work side by side with Tony for a decade. He was one of the most intelligent, insightful, and kind people I have ever known.

He had a profound impact on me, as a young adult, learning to make my way in the world. We had many discussions about philosophy, religion, the universe, and life in general. Tony was a professional, who helped many people during his career in public safety.

I wish more people shared his compassion for others. Words can't express what a great person this world has lost.
