“ Woody Jane, Danielle, Bernard, and Montez, you have empathy and sympathy in losing your loved one, Bernard— a husband, father and grandfather.

Bernard and I were friends. He sang at my husband's home-going celebration in 2008. I have 2 paintings that he drew for me for my birthday years ago. Also we worked on projects at JCPS and we both retired from the system.

I, as everyone who knew him, Will miss his presence here on earth

Sincerely, Jessie Daniels

“ Dr. Minnis provided me with guidance and support through my growth in educational leadership. He started as my professor but he ended up being a my mentor; a mentorship that went well beyond my graduation. I would lean on him for advice and he would provide that validation that I needed as a young principal and school leader.

Thank you Dr. Minnis. Your work is done here. Rest in power.

“ Bernard was a wonderful man, great educator and talented artist.

His kind demeanor and comforting words were appreciated by everyone he met. He always knew what to say, how to say it effectively and when to make the most crucial point. All of these qualities made him stand out as a person who lived his faith everyday and treated others as he wanted to be treated.

The dedication he had to the provision of quality education for all will be treasured by everyone in this community who knew him and he will be held up as a model for others to emulate.

Artistically, Bernard had a special talent and a willingness to share his creativity with others. He will truly be missed!

“ Another one of the good guys takes his leave. Another one of those people who I can't remember when I didn't know Bernie and his family. He was always welcoming and approachable. I remember vividly the one time we didn't agree and I was hot about it. I was on a roll down the hall to his office to ready to give home an earful and just as I was about to make the turn into his office, George Unseld picked me up, legs still walking, put me on an elevator and took me to lunch where we laughed about my stupidity. The next morning, I got off the elevator and there was Bernie, just as welcoming as ever. I will miss those welcoming greetings. All jobs completed and well done. See you on the other side some day.
