Comments

“ What is there to say about a perfect ANGEL. She was a very giving and kind person. But first and foremost of all my BEAUTIFUL AUNT . She is the reason I love math when we would visit during the summer she would play my favor game which no one knew it was hers to MONOPOLY . She would be the banker but would make me count everything to make sure she paid me the correct amount and the correct amount for herself as well. It was our secret game between aunt and niece . She would always say manellie let's play our favorite game and no matter what she would always let me win. And afterwards she would give me \$5 and tell me to hide it so no one would know. I was given a little something extra. I will miss you so much and always remember our special times . And even to this day when I play MONOPOLY with my kids I still always win. Fly high my BEAUTIFUL AUNT.until I see you again

Love. manellie (Lisa)
