“ *I wanted to start by saying that it was truly an honor of getting to know Anthony for these past 4 months. I worked with him at UPS after i transferred to Wing E for a 6 hour position. Now, I like to get comfortable around the people that I work with before opening up and being more sociable. However, I remember one night I heard Anthony talking about a recent anime he was watching and had found a common ground to talk to him. we talked about the different shows we'd watched and telling each other about new ones that the other should watch and stuff and that is how we became friends. occasionally, our talks became more of deep conversations. I remember one night that he told me that I had an old soul. He'd always asked how I was doing and how my weekend was as I would ask what plans he had for the weekend. He would always find a way to smile during our conversations. And at the end of the night, when we'd get off the shuttle he'd always say "be safe and have a good one" or "see you tomorrow" along with a fist bump. In such a short amount of time Anthony had touch my heart and as I watched the gofundme and seen how fast people were willing to donate showed me that my heart wasn't the only one he had touched. I was truly lucky to have had the opportunity of meeting Anthony in my life and will always cherish the memories that we shared. May you rest in piece my friend.*
