“ *Carole was my first principal and best. As a green white girl who knew next to nothing about inner city life and the challenges that came with it, I was blessed to have her as my mentor and friend. She must have seen something in me that the first two principals who interviewed me didn't, and I will always be grateful for that. I had many questions my first year and never did I sense impatience or frustration only kindness and patience from a warm and loving leader who not only cared about the children who entered her school but also the staff that were responsible to teach them. Thank you Carole for all you did to help me become an educator that you would be proud of. You will be missed by more than you could possibly imagine.*

“ *To Charles, Valerie and family: I never realized growing up in our neighborhood just how blessed we were. We were surrounded by some of the most amazing families on the planet. They were hard working, committed and showed us unconditional love.*

Each house we visited made us feel like family. I'll never forget how happy I was when I found out you all were moving into the house directly behind us. I knew it would be fun, and Mrs. Daniels had a way of welcoming us into her home with warmth, love and wisdom. She was an amazing neighbor, and role model. She was successful, strong and most of all loved God. Thank you Mrs. Daniels for being a light! We are forever blessed!
