“ This right here really hurt me, you was like a sister to me, we share so much. You called me and told me, then cried and hung up. I text you and told you I am always here if you need me. And that I loved you, you text back and said the same. The last time I talked to you, you didn't want me to see you liked that. I just wish you would had called me. You will truly be missed. My other sister. I have so many memories.
