“ My big brother, Ed Spilly, was one of the most interesting and magnanimous individuals I have ever had the pure pleasure of meeting, much less having him as a mentor, taking me fishing and to the amusement park in Indianapolis when we were kids-- letting me drive the old Ford as he hung out the window watching the geese with binoculars when I could barely see over the steering wheel -- and yes, always generous and kind. I really don't miss him, because he is in my thoughts every day. His spirit is much too large to be missed. Love you always, brother. And to Joann, I could hardly have dreamed of a better sister-in-law. So nice to have found a place to express this gratitude.
