“ *Jonathan and I started at the Library two months apart and he was the first person I met at LFPL. We rode the elevator together on my first day on the job and he introduced himself to me. I will always be grateful for his friendly and welcoming demeanor, on that first day and in the 23 years since. He will be missed.*

*I have known Johnathan for a long time and didn't know he had passed. I my mother and I met Johnathan in 1996 and instantly formed a bond with Johnathan. He was is to talk to and every time I would see him he would always asked about her. Johnathan was an excellent carpenter—he was naturally gifted at fixing things. I guess we all had a common bond—his was carpentry, my mother playing the piano and cooking, and me making something out of what some people would consider beautiful. Anyway John has done floors, wallpaper, plumbing and anything any other household items my mother and I might need for years. So today when I called his number and it was disconnected. I also remember he telling me the last time we spoke he was going to get back with me and I had not heard from him. I became concerned and I started searching the internet for a new telephone number and realized after the internet search he had passed. I just want to say John was a smart, talented, and naturally gifted man and he will truly be missed. He even gave me excellent advice on different topics. To the Kenemore family and friends I know that the lost of sister and then his mother took a toll on him and I guess he could stand being separated from them. Please accept my condolences and deepest sympathy. He will certainly be missed. Patricia and Pamela Crenshaw*
