“ *I am obviously very late in finding out about the passing of Kendra. I used to work with all 3 of her kids for quite some time. 3 years later I am hearing about her passing and I am devastated. She was my favorite parent to work with and I loved her children as if they were my own. Kendra you were an awesome human being and always wanted the best for your kids and did everything you could to provide and support them. I am so sorry to hear what happened to you , I hope you are resting peacefully. I wish I could have come and visited you and the kids one last time. Just know you and your family will always be in my thoughts and prayers ! You made a huge impact on me in my career and I will forever be thankful that I got to work with someone as awesome as you and your family.*
