“ My condolence to the Pullen family in the passing of your love one. I remember as a younger cousin rowing up I was always trying to follow him and my older sister. I will always remember his quiet manner, an easy smile and never an unkind word spoken from him. I have the best memories as an adult many years my first Christmas card would be from him. I pray that the peace and love of God comfort the family now.

*Rest in Peace Bobby*

“ Robert O. Pullen "Bobby" was my first cousin but more like a brother. He was older than me by one year. I got to start school one year earlier so that we could be together. From our first day of elementary school thru high school we were only separated in one class. I will always remember and love the quiet compassionate person who from birth to death whatever he did, "He did it his way."
